Ain't She Nice?

Isn't the weather delightful, Azure or leaden the sky! Such a relief from the frightful Heat that we had in July!

Isn't it wondeful weather! When does the sun cross the line? Now, then, dear friends, all together Isn't September just fine?" -Chicago Tribune.

MORE WAR, MORE TOBACCO

New Yorker Says Excited Nerves Cause Increased Consumption.

Washington .- The European war has got o nthe nerves of the American people so much that they have taken to an increased use of tobacco and chewing gum to the extent of using 10 per cent. more of these products than ordinarily, according to Thos, C. Shotwell, a New York tobacco expert. Shotwell says that men become so interested and absorbed in watching the war bulletins that un consciously they smoke or chew gum with greater avidity than ever.

WHEN MIDDLE AGE BEGINS.

In the October Woman's Home Companion Ralph Waldo Trine writes a. article entitled "When Is Youth-What After Youth? The principal point which he brings out is the power of the mind to keep the body young and vigorous. In the following extracfrom his article he touches on this point and also indicates the division between youth, middle age and old

"That we have it in our power to determine our physical and bodily conditions to a far greater extent than we go is an undeniable fact. That we have it in our power to determine and to dictate the conditions of 'old age' to a marvelous degree is also an undeniable fact-if we are sufficiently keen and sameiently awake to begin early

"If any arbitrary divisions of the various periods of life were allowable I should make the enumeration as to: lows: Youth, barring the period of babyhood, to forty-five; middle age forty-five to sixty; approaching age. sixty to seventy five; old age, seventy five to ninety-five and a hundred.

"That great army of people who 'age' long before their time, that like wise great army of both men and women who along about middle age say from forty-five to sixty, break and as we say, all of a sudden go to pieces, they should be in the prime of lif in the full vigor of manhood anwomanhood and of greatest value to themselves, to their families, and to the world, is something that is contrary to nature, and is one of the pitiable conditions of our time. A greater know ledge, a little foresight, a little carin time could prevent this in the great majority of cases, in ninety cases out of every one hundred, without ques-

(Scientific American.) The number of rounds that will fired during an ordinary battle can only be imagined. We have data from the Russo-Japanese war showing that at Ljaopan one battery fired 2,600 rounds in one day, while another fired 3,304 rounds, making for each gun about 413 rounds in one day. This was not an uncommon occurrence, and it shows the expense involved in carrying on modern war.

The most common projectile of th three-inch calibre is the shrapuel, which is in itself a gun, arranged by time fuses so that at the desired height it is made to burst, shooting forware out of a shell 250 lead balls, each effective to kill a man.
